

Dataset Description

Kevin Christianson and Isaac Haseley will use the College Scorecard dataset, a comprehensive higher education database maintained by the U.S. Department of Education.

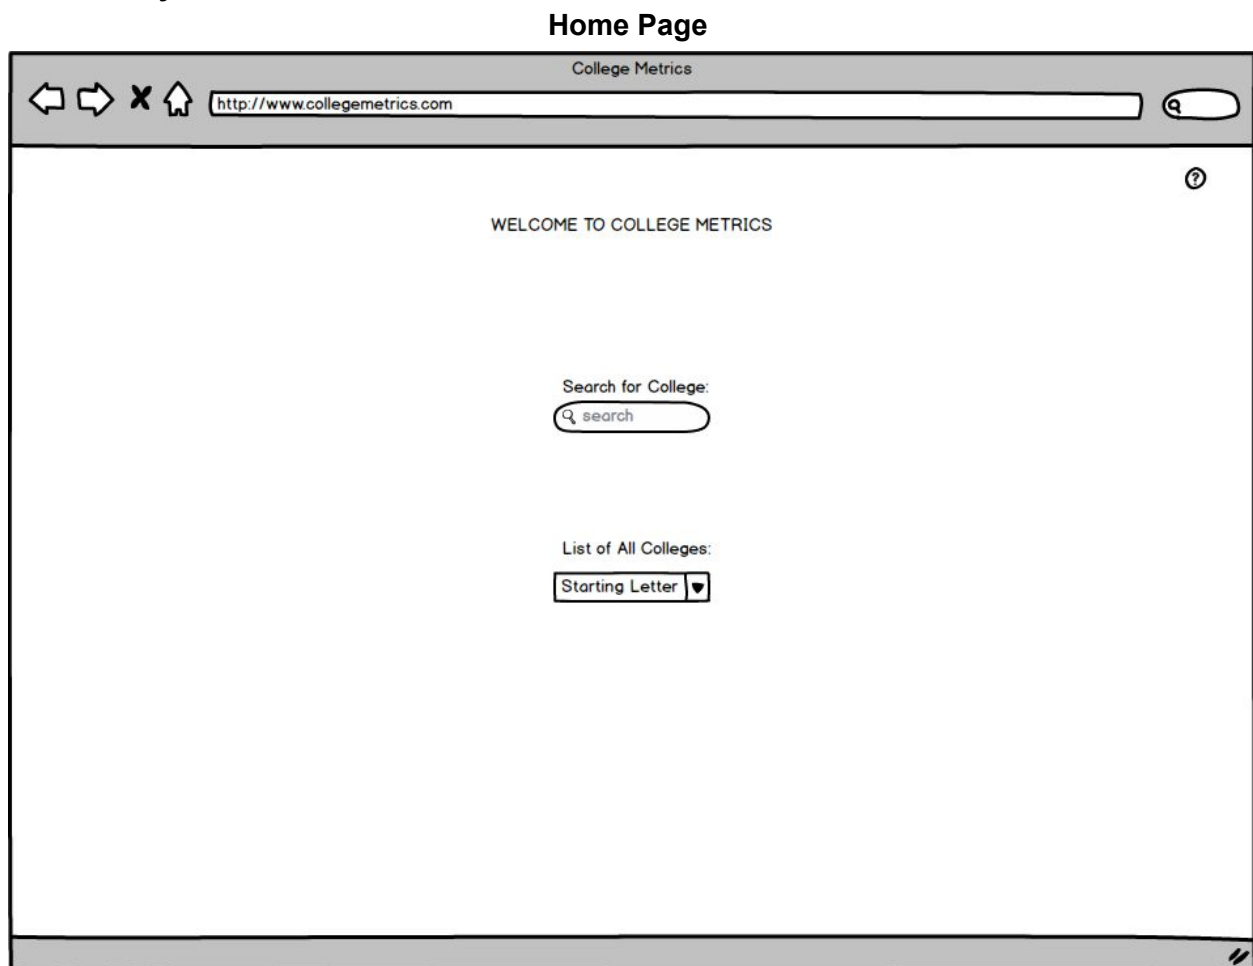

Data, analysis, and documentation, including variable descriptions and guides to using the College Scorecard API are available here: <https://collegescorecard.ed.gov/data/>

Licensing information is available here: <https://catalog.data.gov/dataset/college-scorecard>

User feature priorities

1. Search by school to get basic info
2. List of all schools under a certain letter with a link to basic info on each school
3. Forward/back button functionality
4. Sort schools by a variable
5. Options for more information about school
6. Pretty site (background images, etc.)
7. Run multiple sorts to simulate ranking priorities
8. Include other datasets
